

Welcome to H3 Custom Wood Mouldings®. The craftsmen of H3 have more than thirty five years experience creating decorative wood mouldings and mill work for residential and commercial projects.

Located in Tulsa, Oklahoma, H3 is in the geographic center of the U.S., allowing us to offer our customers a nationwide level of service and accessibility. We take pride in our friendly, knowledgeable staff and broad range of popular profiles. With a full line of hand carved corbels and decorative elements as well as complete custom capabilities, H3 is able to meet all of your interior finish-work needs. If we do not stock the pattern you're looking for, we will mill it. Our production process is completely integrated with F.A.S. lumber, allowing us to deliver your project with the highest quality in a timely manner.

- ♦ Our standard wood species include poplar, oak, and knotty alder. Other species are available upon request and subject to availability. *Note: wood is a natural material, therefore wood colors and grain patterns will vary between and within wood species.*
- ♦ All patterns are available in flex material for curves—suitable for stain or paint
- ♦ All patterns marked with an asterisk (*) throughout the catalog, excluding Tuscan and Hand Carved, are available in finger joint, paint-grade finish
- ♦ All mouldings are unfinished (*not stained or painted*)

Flex material can be stained or painted like natural wood
